

This year at the EAGE we have a packed educational program on pre-stack analysis

3 live prestackPro software demos daily
3 free training sessions on pre-stack analysis

Software Demos

prestackPro
BY SHARP REFLECTIONS

psPro-Process

Interpretive processing using new seismic calibration tools and methods

(Peter Harris)

psPro-Interpret

Delineating depositional and injected reservoir sands, straight from the gathers

(Bill Shea / Morten Sola)

psPro-Azimuthal

New software tools to predict stress directions and natural fracture orientations in tight reservoirs, using full-azimuth gathers

(Bill Shea / Peter Harris)

Training Sessions

- #1 Interactive pre-stack data QC and gather conditioning for QI analysis. Improve data quality while you drink your coffee!
- #2 Pre-stack seismic interpretation and amplitude analysis. Find the DHIs and enjoy a refreshing drink at our booth!
- #3 New Features in Pre-Stack Pro 4.6

Program

	Tuesday	Wednesday	Thursday
09:30	psPro-Interpret	Morning DEMO psPro-Process	psPro-Azimuthal
10:30	Training Session #1: Gather QC and Conditionin to Improve Data Quality		
12:30	psPro-Azimuthal	Lunch & Learn psPro-Interpret	psPro-Process
13:30	Training Session #2: Pre-Stack Interpretation and AVO Analysis		
14:30	Training Session #3: New Features in psPro 4.6		15:00 psPro-Interpret
16:00	psPro-Process	Afternoon DEMO psPro-Azimuthal	Tequila 15:30 Happy Hour
16:30	Happy Hour	Happy Hour + Evening Event
